Read the problems and solve

There are 5 bunches of bananas. Each bunch has 5 bananas. How many bananas are there in all?
There are _____ bananas all together.

A gardener has planted 7 trees in a row. If there are 10 rows, how many trees are there altogether?
There are _____ trees all together.

There are 10 swings in the park. On each swing there are 2 children. Find the total number of children?
There are _____ children all together.

John eats 3 meals a day. How many meals does he eat in one week?
There are _____ meals all together.

There are 4 baskets. Each basket has 6 apples. How many apples are there altogether?
There are _____ apples all together.

Problem	Answer
1. There are 5 bunches of bananas. Each bunch has 5 bananas. How many bananas are there in all?	25
2. A gardener has planted 7 trees in a row. If there are 10 rows, how many trees are there altogether?	70
3. There are 10 swings in the park. On each swing there are 2 children. Find the total number of children?	20
4. John eats 3 meals a day. How many meals does he eat in one week?	21
5. There are 4 baskets. Each basket has 6 apples. How many apples are there altogether?	24

LINEAR EQUATION

Linear Equations

Linear Equations are mathematical equations that contain variables and constants. These equations are composed of two expressions that are connected by an equality symbol, =.

Steps in converting word problems into linear equations.

1. Read and understand each word in the statement.
2. Take note of the important words and the unknown/s mentioned in the statement.
3. Assign variable/s to represent the unknown/s.
4. Translate the words into mathematical equation.
5. Solve for the unknown/s.

Solving Word Problems Involving Linear Equations and Linear Inequalities

Systems of Linear Equations: Word Problems
Jefferson Davis Learning Center, Sandra Peterson

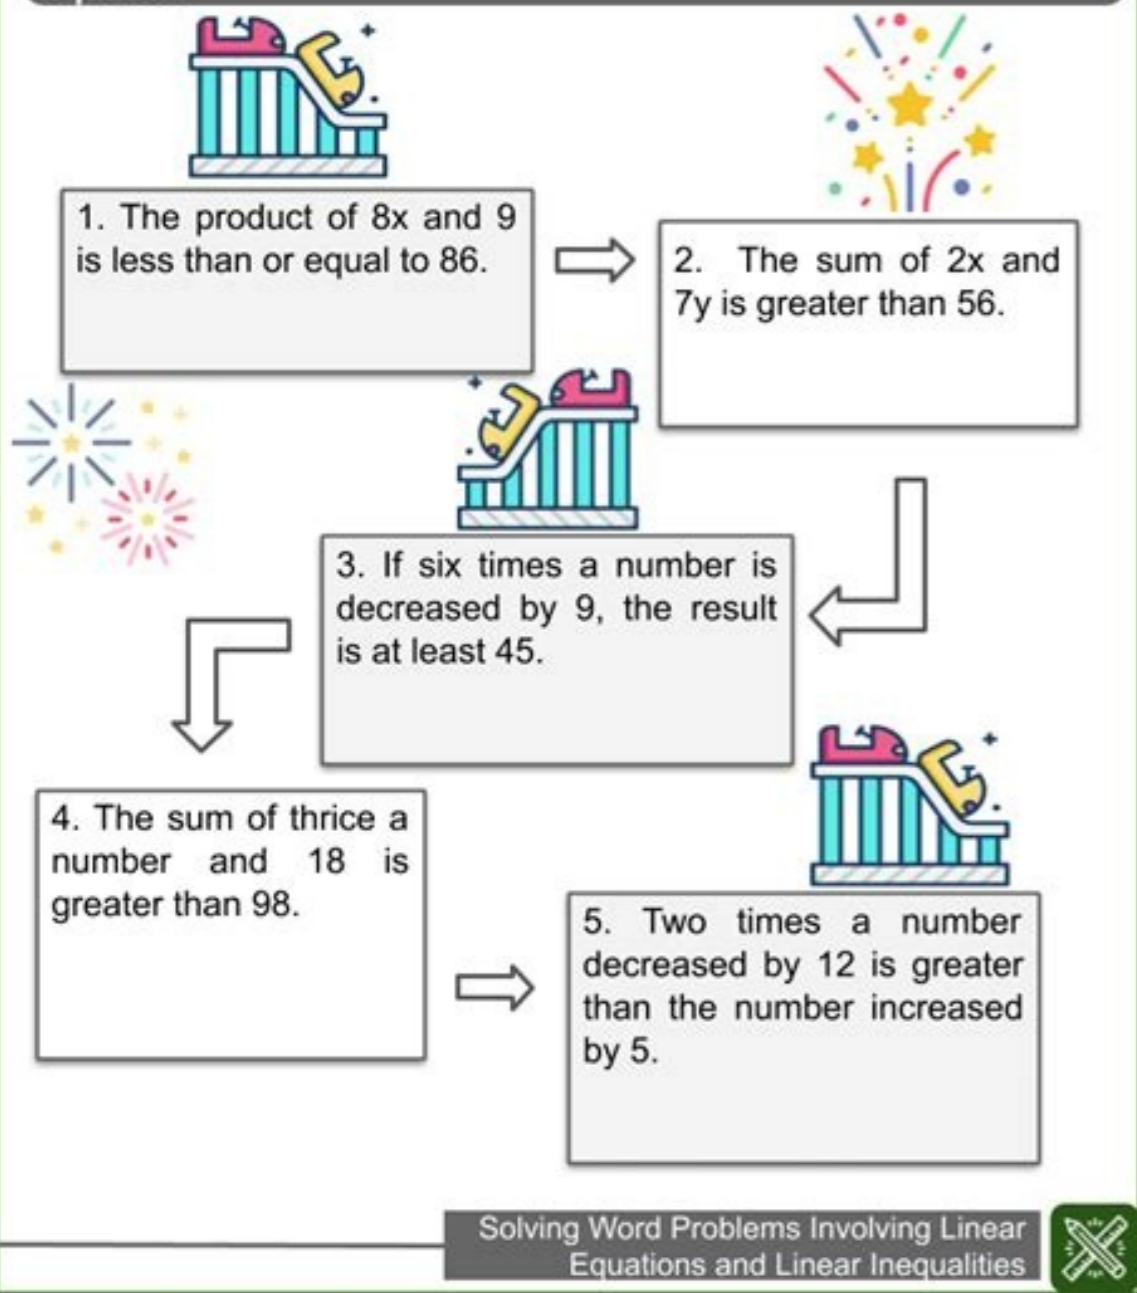

- Use systems of linear equations to solve each word problem.
1. Michael buys two bags of chips and three boxes of pretzels for \$5.13. He then buys another bag of chips and two more boxes of pretzels for \$3.09. Find the cost of each bag of chips and each box of pretzels.
 2. At a restaurant four people order fried crab claws and four people order a cup of gumbo, with a total bill of \$31. If only two people had ordered the crab claws and one person ordered the gumbo, the bill would have been \$12.25. How much is each order of fried crab claws and each cup of gumbo?
 3. A boat goes 32 miles downstream in two hours. The return trip against the current takes sixteen hours. Find the rate of the boat in calm water and the rate of the current.
 4. A canoeist travels 30 miles downstream in three hours. Against the current the return trip took fifteen hours. Find the rate of the canoeist in calm water and the rate of the current.
 5. With the wind a cyclist rode 24 miles in three hours. She returned in twelve hours against the wind. Find the rate of the cyclist without wind and the rate of the wind.
 6. It takes three hours for a boat to go 18 miles downstream, and nine hours to return. What is the rate of the boat in calm water and the rate of the current?

- Answers**
1. \$.99 for a bag of chips; \$1.05 for a box of pretzels
 2. \$4.50 for an order of crab claws; \$3.25 for a cup of gumbo
 3. rate of boat in calm water: 9 mph rate of the current: 7 mph
 4. rate of canoeist in calm water: 6 mph rate of the current: 4 mph
 5. rate of cyclist without wind: 5 mph rate of the wind: 3 mph
 6. rate of boat in calm water: 4 mph rate of the current: 2 mph

Please visit the Learning Lab for further assistance.

ROLLER COASTER RIDE

Enjoy the thrilling ride of the roller coaster! To finish the track, read each statement carefully and rewrite it into a mathematical equation.

Easy algebra 1 problems.

Function Graphing Calculator Factoring and Prime Factoring Calculator Simplifying Addition/Subtraction/Multiplication/Division Proportion Calculator Order of Operations Worksheets List Basic Equations Basic Proportions Consecutive Integer Word Problems Here is a graphic preview for all of the Equations Worksheets. You can select different variables to customize these Equations Worksheets for your needs. The Equations Worksheets are randomly created and will never repeat so you have an endless supply of quality Equations Worksheets to use in the classroom or at home. We have one step equations worksheets with integers, decimals, fractions. There is two step and multiple step equations worksheets with integers and decimals. We have worksheets that produces problems that use absolute values, proportions, and percentage. Our word problems cover one step, two step, distance, rate and time problems, mixture, and work problems. Our Equations Worksheets are free to download, easy to use, and very flexible. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Click here for a Detailed Description of all the Equations Worksheets. Click the image to be taken to that Equations Worksheets. One Step Equations with Integers Worksheets These Algebra 1 Equations Worksheets will produce one step problems containing integers. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. One Step Equations with Decimals Worksheets These Algebra 1 Equations Worksheets will produce one step problems containing decimals. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. One Step Equations with Fractions Worksheets These Algebra 1 Equations Worksheets will produce one step problems containing fractions. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. One Step Equations with Integers, Decimals, and Fractions Worksheets These Algebra 1 Equations Worksheets will produce one step problems with integers. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Two Step Equations with Integers Worksheets These Algebra 1 Equations Worksheets will produce two step problems containing integers. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Two Step Equations with Decimals Worksheets These Algebra 1 Equations Worksheets will produce two step problems containing decimals. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Multiple Step Equations with Integers Worksheets These Algebra 1 Equations Worksheets will produce multiple step problems containing integers. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Multiple Step Equations with Decimals Worksheets These Algebra 1 Equations Worksheets will produce multiple step problems containing decimals. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Absolute Value Equations Worksheets These Algebra 1 Equations Worksheets will produce absolute value problems with monomials and polynomials expressions. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Solving Proportions Worksheets These Algebra 1 Equations Worksheets will produce problems for solving proportions using polynomials and monomials. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Percent Problems Worksheets These Algebra 1 Equations Worksheets are great for practicing percentage calculations. You may select three different types of problems and have the problems be in either numerical or word formats. You may select the range of numbers to work with as well as whole number or decimal numbers. You may specify how many decimal points to round the answers. This worksheet will produce ten problems per page. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Solving Single Variable Equations Worksheets These Algebra 1 Equations Worksheets will produce single variable equations to solve that have different solution types. You may select three different types of problems where there is no solutions, one solutions, or an infinite number of solutions. These worksheet will produce twelve problems per page. These Equations Worksheets are a good resource for students in the 7th Grade through the 9th Grade. One Step Equation Word Problems These Algebra 1 Equations Worksheets will produce one step word problems. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Two Step Equation Word Problems These Algebra 1 Equations Worksheets will produce two step word problems. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Distance, Rate, and Time Word Problems These Algebra 1 Equations Worksheets will produce distance, rate, and time word problems with ten problems per worksheet. You may select the numbers to be represented with digits or in words. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Mixture Word Problems These Algebra 1 Equations Worksheets will produce mixtures word problems with ten problems per worksheet. You may select the numbers to be represented with digits or in words. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Word Problems These Algebra 1 Equations Worksheets will produce word problems with ten problems per worksheet. You may select the numbers to be represented with digits or in words. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Want to measure your knowledge of Algebra 1 concepts and assess your exam readiness? Need the best Algebra 1 worksheets to help your students learn basic math concepts? If so, then look no further. Here is a perfect and comprehensive collection of FREE Algebra 1 worksheets that would help you or your students in Algebra 1 preparation and practice. Download our free Mathematics worksheets for Algebra 1. Hope you enjoy it! IMPORTANT: COPYRIGHT TERMS: Worksheets may not be uploaded to the internet in any form, including classroom/personal websites or network drives. You can download the worksheets and print them as many as you need. You have permission to distribute the printed copies to your students, teachers, tutors, and friends. You Do NOT have permission to send these worksheets to anyone in any way (via email, text messages, or other ways). They MUST download the worksheets themselves. You can send the address of this page to your students, tutors, friends, etc. The Absolute Best Book to Ace the Algebra 1 Test Rated 4.55 out of 5 based on 69 customer ratings Algebra 1 Concepts The Basics Expressions and Equations Linear Functions Factoring Inequalities and System of Equations Monomials Operations Add and Subtract Monomials Multiply and Divide Monomials Quadratic Polynomial Operations Radical Expressions Rational Expressions Statistics and Probabilities Probability Problems Factorials Combinations and Permutations Statistics and Probabilities Probability Problems Combinations and Permutations A Perfect Workbook to Sharpen Your Math Skills! completing square algebra 1 worksheet factoring problem solver free worksheets for adding and subtracting positive and negative integers prentice hall algebra 1 ... modeling word problems linear equations samples online algebra calculator html code calculator that will solve rational equations second order homogeneous ODE ... Work Word Problems. It is possible to solve word problems when two people are doing a work job together by solving systems of equations. To solve a work word problem, multiply the hourly rate of the two people working together by the time spent working to get the total amount of time spent on the job. The Algebra 1 course, often taught in the 9th grade, covers Linear equations, inequalities, functions, and graphs; Systems of equations and inequalities; Extension of the concept of a function; Exponential models; and Quadratic equations, functions, and graphs. Khan Academy's Algebra 1 course is built to deliver a comprehensive, illuminating, engaging, and Common Core ... Word problems relate algebra to familiar situations, helping students to understand abstract concepts. Students develop understanding by solving equations and inequalities intuitively before formal solutions are introduced. Students begin their study of algebra in Books 1-4 using only integers. Books 5-7 introduce rational numbers and expressions. Solving Quadratic Equations by Factoring Solving Quadratic Equations by Completing the Square More Lessons for Grade 9 Math Worksheets. Quadratic equations - Solving word problems using factoring of trinomials Question 1a: Find two consecutive integers that have a product of 42 Algebra Help. This section is a collection of lessons, calculators, and worksheets created to assist students and teachers of algebra. Here are a few of the ways you can learn here... Lessons. Explore one of our dozens of lessons on key algebra topics like Equations, Simplifying and Factoring. Check out the entire list of lessons... Calculators Worksheets for linear equations. Find here an unlimited supply of printable worksheets for solving linear equations, available as both PDF and html files. You can customize the worksheets to include one-step, two-step, or multi-step equations, variable on both sides, parenthesis, and more. The worksheets suit pre-algebra and algebra 1 courses ... Software for math teachers that creates custom worksheets in a matter of minutes. Try for free. Available for Pre-Algebra, Algebra 1, Geometry, Algebra 2, Pre-calculus, and Calculus. Set students up for success in Algebra 1 and beyond! Explore the entire Algebra 1 curriculum: quadratic equations, exponents, and more. Try it free! Quiz & Worksheet - Graphing Linear Equations with Substitution. 10K. ... Quiz & Worksheet - Solving Algebra Problems with Fractions. 1.7K. ... Analyzing Equations in ... Worksheet Name: File Size: Downloads: Upload date: Multi-step equations - Integers: 222.1 kB: 41686: ... Systems of linear equations; Linear systems - word problems; Recent Posts. Custom Math Writing Services - How Do They Help? ... algebra and geometry worksheets and tests. Now, professors and teacher can reduce cheating by selecting ... Solving Systems of Equations Real World Problems. Wow! You have learned many different strategies for solving systems of equations! First we started with Graphing Systems of Equations. Then we moved onto solving systems using the Substitution Method. In our last lesson we used the Linear Combinations or Addition Method to solve systems of equations. Now we ... These Algebra 1 Equations Worksheets will produce one step word problems. These worksheets will produce ten problems per worksheet. These Equations Worksheets are a good resource for students in the 5th Grade through the 8th Grade. Two Step Equation Word Problems These Algebra 1 Equations Worksheets will produce two step word problems. Word problems relate algebra to familiar situations, helping students to understand abstract concepts. Students develop understanding by solving equations and inequalities intuitively before formal solutions are introduced. Students begin their study of algebra in Books 1-4 using only integers. Books 5-7 introduce rational numbers and expressions. Simply put, two-step equations - word problems are two step equations expressed using words instead of just numbers and mathematical symbols. They are just a bit more complicated than one-step equations with word problems and they demand just a bit more effort to solve. If you are not confident in your abilities to solve two-step equations with word problems, you can go to ... Linear Equations in One Variable Word Questions (Worksheet) A few practice questions are given below. Question 1: Solve $(10x - 7) = 21$; Question 2: Find the multiples, if the sum of two consecutive multiples of 6 is 68. Question 3: Verify that if $x = -3$, is a solution of the linear equation $10x + 7 = 13 - 5x$. Free Algebra worksheets (pdf) with answer keys includes visual aides, model problems, exploratory activities, practice problems, and an online component ... Factor Trinomials Worksheet ... Linear Equations. Mixed Problems on Writing Equations of Lines Slope Intercept Form Worksheet Standard Form Worksheet Point Slope Worksheet Write Equation of ... Free Algebra worksheets (pdf) with answer keys includes visual aides, model problems, exploratory activities, practice problems, and an online component ... Factor Trinomials Worksheet ...
